Penguins School of Early Learning

Welcome to Penguins. A place where imagination and the environment lead to discovery for learners of all ages. With 7 spacious, age specific rooms, each with their own kitchens, Penguins offers a homely feel that is interchangeable, keeping the environment fresh and interesting for all ages.

INFANT ROOMS

Our infant area is comfortable and homely with 2 rooms catering for a maximum of 20 children in total. Our infants have access to their own outdoor spaces, which encourage free movement and exploration.

TODDLER ROOMS

Our Toddler area provides space and opportunity for energetic exploration, and also has quiet areas to retreat to, such as our little house on the hill.

We recognise our toddler's efforts to assert themselves as individuals, and therefore we choose to staff our toddler room well above the required Ministry of Education ratio's.

CHILD CENTERED PLAY SPACES

Penguins is located on a 1 and a half acre site with dedicated indoor spaces that flow from a central hallway and reception area. All rooms in the centre have access to our centre orchard, where children learn to harvest and replant alongside their teachers.

PRESCHOOL ROOMS

In our preschool areas, the children have access to devices such as cameras and iPad's to enable them to experience and become familiar with technology and its many uses. Our preschool rooms provide the foundation for school readiness and life long learning.

PLAYGROUND

Playground features in these areas include swings, slides, bike trails, water features and our pirate ship. We are also committed to recycling and the children are educated about how to separate waste accordingly.

MEALS

Food is prepared onsite in our main kitchen and we provide healthy and nutritious meals and snacks on a daily basis.
